

PSIAMS

SYSTEMS

For the customer, PSIAMS will:

- Supports and measure the distance travelled towards being self sustaining or help support maintenance
- Measure soft outcomes: feelings and abilities and hard outcomes: skills development
- Support the notion of 'giving back' to family, relationships, community and the state (Social Capital)
- help identify and communicate risks

For Commissioners/Funders, PSIAMS will:

- Give a measure of Social Value
- Demonstrate change in person, family or community
- Support compliance and assist with auditing
- Provide a real time snapshot of progress
- Support the commissioning of outcomes
- Help inform local delivery planning

For Communities, PSIAMS will:

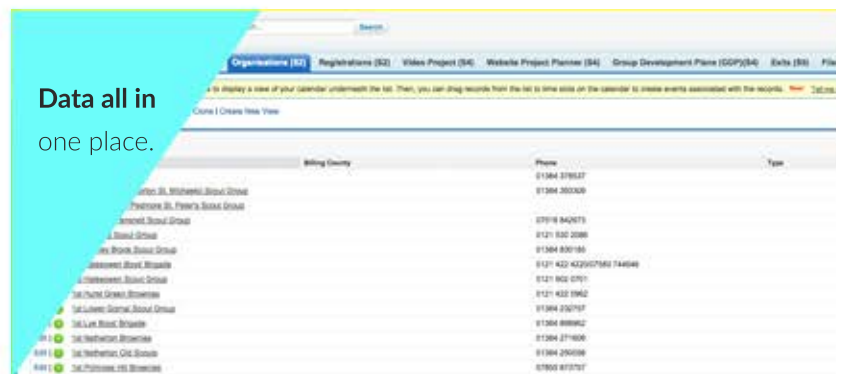

- Helps identify gaps in local services
- Encourages development of community empowerment
- Support the fostering of community support and Social Enterprise development
- Help with volunteering
- Demonstrate a legacy of change, support community well-being and build community assets

One system for all.

For Organisations, PSIAMS will:

- Overlays with their existing processes
- Support Continual Professional Development for staff
- Implement quickly and easily
- Help with consistency and efficiency in work
- Identify gaps in services and funding opportunities
- Helps with partnership building
- Assessments and case management via mobile device
- Your customer data in one place and also accessible by mobile devices

Data all in one place.

Quote: "PSIAMS enables me to quickly access client information, securely from my mobile device; so I am always able to stay in touch with my clients journey."

Judy Cawley, Clinical Lead at Birmingham Counselling Services

PSIAMS Systems: "Empowering organisations to help them maximise the efficiency and impact of their work, through focused Data Outcomes Management"
